

Exchange members resemble their commercial counterparts

Prevalence of chronic conditions

The percent of exchange members with chronic conditions is trending closely to that of commercial health plan members.

LOOKING MORE FAMILIAR

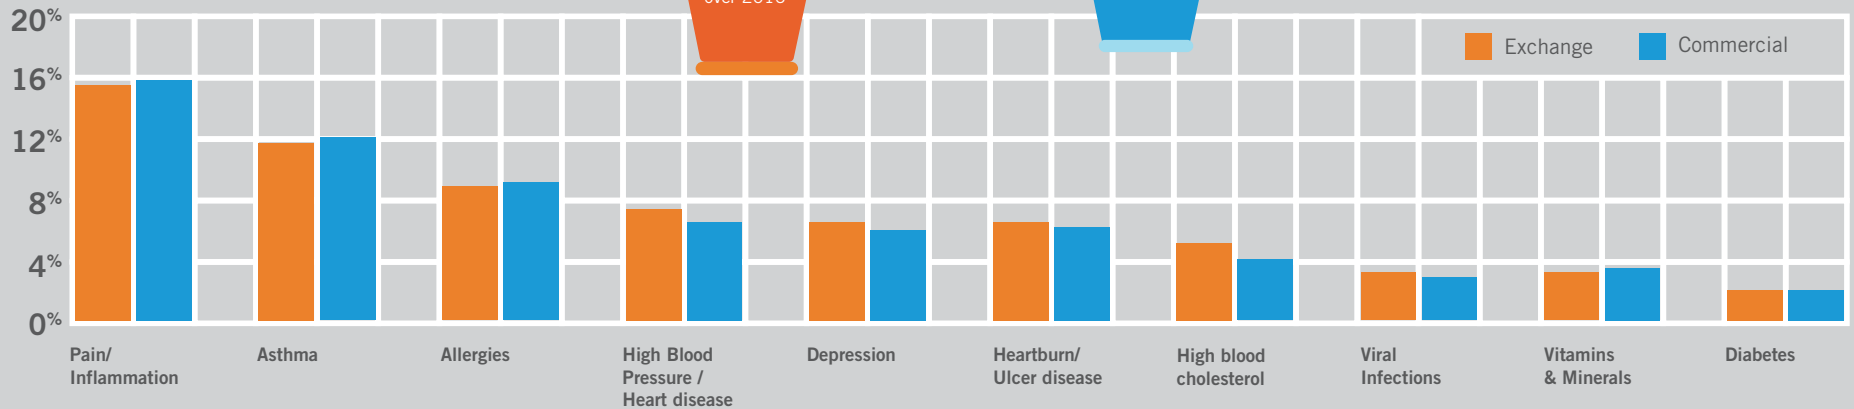

First-wave exchange members were being treated for conditions like HIV that required costly specialty medications. Now, more exchange members **take medications regularly for newly diagnosed conditions** that more closely mirror commercial members.

CONTACT YOUR ACCOUNT EXECUTIVE

for solutions to minimize risk and manage pharmacy cost (Express Scripts SafeGuardRx®), and for benchmarking across exchange and commercial populations.

Percent of continuous members starting new therapies¹

Some members may have started multiple new therapies.
