Subject: Cigna and Express Scripts are Now One Company

December 21, 2018

To our valued suppliers:

Today marks our first day as a combined organization of Cigna and Express Scripts. Together, we are accelerating a new, more sustainable model of health care as a global total health and well-being company. Our personalized solutions support the whole person and our broad, integrated capabilities maximize value, affordability and choice for our customers and clients. Please see the press release on cigna.com for details. We thank you for your support in helping us reach this milestone.

We realize our success in driving positive change in the industry cannot be achieved without the support of strategic partners like you. With your help, we will continue to deliver high-quality products and services to our customers and stakeholders. We also expect more opportunities to unfold in the future as a larger, more diversified company with greater growth potential than ever before. We are excited to share the benefits our new organization will provide.

In recent months, our teams have been working together to develop a plan that will define a long-term strategy for our new procurement function. As we look for opportunities to combine our supplier networks through this process, we may need to revisit aspects of our existing relationship. If that is the case, we will reach out to you to discuss these changes in more detail.

While the combination of our two companies will require some change, it will not happen immediately. As of today, our processes will remain unchanged; all current and valid contracts will continue to be honored, and business will continue as usual. Any changes will be communicated to you in advance of implementation.

We're including an FAQ with this letter to help you understand more about what's ahead. If you need to contact us for any reason, you may reach out to your current point of contact at Cigna or Express Scripts.

Thank you for your continued partnership and support. Together, we are confident that we will unlock greater value than ever for our customers, businesses, and communities.

Sincerely,

Tony Abate, SVP & Chief Procurement Officer
Carlos Guzmán, VP Corporate Procurement ESI
